

## Ryton® R-4-200BL PPS Compound

Version 1.3

Revision Date 2011-02-10

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### Product information

Trade name : Ryton® R-4-200BL PPS Compound  
 Material : 1024040, 1024047, 1024046, 1024045, 1024044, 1024043,  
 1024042, 1037736, 1024041

#### EC-No.Registration number

Chemical Name	CAS-No. Index-No.	Registration number
p-Dichlorobenzene	106-46-7 602-035-00-2	01-2119472312-46-0004
Sodium sulfide	16721-80-5	01-2119513719-34-0004
Ethylene	74-85-1 601-010-00-3	01-2119462827-27-0004
		01-2119462827-27-0003

**Company** : Chevron Phillips Chemical Company LP  
 Ryton® PPS and Xtel® PPS Alloys  
 10001 Six Pines Drive  
 The Woodlands, TX 77380

**Local** : Chevron Phillips Chemicals International N.V.  
 Brusselsesteenweg 355  
 B-3090 Overijse  
 Belgium

**Ryton® R-4-200BL PPS Compound**

Version 1.3

Revision Date 2011-02-10

**MEDICAL APPLICATION CAUTION:** Do not use this Chevron Phillips Chemical Company LP material in medical applications involving permanent implantation in the human body or permanent contact with internal body fluids or tissues.

Do not use this Chevron Phillips Chemical Company LP material in medical applications involving brief or temporary implantation in the human body or contact with internal body fluids or tissues unless the material has been provided directly from Chevron Phillips Chemical Company LP under an agreement which expressly acknowledges the contemplated use.

Chevron Phillips Chemical Company LP makes no representation, promise, express warranty or implied warranty concerning the suitability of this material for use in implantation in the human body or in contact with internal body fluids or tissues.

**2. HAZARDS IDENTIFICATION****Classification of the substance or mixture****Classification (REGULATION (EC) No 1272/2008)**

Not a dangerous substance according to Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

**Classification (67/548/EEC, 1999/45/EC)**

**In accordance with Directive 1999/45/EC, the product does not need to be classified nor labeled. Label elements**

**Labeling (REGULATION (EC) No 1272/2008)**

Not a dangerous substance according to Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

Components are encapsulated within the product matrix.

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

Molecular formula : Mixture

**Mixtures****Hazardous ingredients**

Chemical Name	CAS-No. EINECS-No.	Classification (67/548/EEC)	Classification (REGULATION (EC) No 1272/2008)	Concentration [wt%]
Polyphenylene Sulfide	26125-40-6			40 - 70
Fiberglass	65997-17-3 266-046-0		Carc. 2; H351 Eye Irrit. 2; H319 STOT RE 2; H373 STOT SE 3; H335	30 - 60
Carbon Black	1333-86-4 215-609-9	Xi; R37 Xi; R36	Carc. 2; H351 Carc. 2; H351	0,1 - 1

**EC-No.Registration number**

**Ryton® R-4-200BL PPS Compound**

Version 1.3

Revision Date 2011-02-10

Chemical Name	CAS-No. EINECS-No.	Registration number
p-Dichlorobenzene	106-46-7 203-400-5	01-2119472312-46-0004
Sodium sulfide	16721-80-5 240-778-0	01-2119513719-34-0004
Ethylene	74-85-1 200-815-3	01-2119462827-27-0004
		01-2119462827-27-0003

For the full text of the R-phrases mentioned in this Section, see Section 16.

For the full text of the H-Statements mentioned in this Section, see Section 16.

**4. FIRST AID MEASURES**

- If inhaled : Move to fresh air in case of accidental inhalation of dust or fumes from overheating or combustion. If symptoms persist, call a physician.
- In case of skin contact : If the molten material gets on skin, quickly cool in water. Seek immediate medical attention. Do not try to peel the solidified material from the skin or use solvents or thinners to dissolve it.
- In case of eye contact : In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- If swallowed : Do not induce vomiting without medical advice.

**5. FIRE-FIGHTING MEASURES**

- Suitable extinguishing media : Water. Water mist. Dry chemical. Carbon dioxide (CO<sub>2</sub>). Foam. If possible, water should be applied as a spray from a fogging nozzle since this is a surface burning material. The application of high velocity water will spread the burning surface layer. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
- Specific hazards during fire fighting : Risks of ignition followed by flame propagation or secondary explosions can be caused by the accumulation of dust, e.g. on floors and ledges.
- Special protective equipment for fire-fighters : Use personal protective equipment. Wear self contained breathing apparatus for fire fighting if necessary.
- Further information : This material will burn although it is not easily ignited.
- Fire and explosion protection : Treat as a solid that can burn. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
- Hazardous decomposition products : Normal combustion forms carbon dioxide, water vapor and may produce carbon monoxide, other hydrocarbons and

**Ryton® R-4-200BL PPS Compound**

Version 1.3

Revision Date 2011-02-10

hydrocarbon oxidation products (ketones, aldehydes, organic acids) depending on temperature and air availability. Incomplete combustion can also produce formaldehyde. Sulfur oxides. Carbonyl Sulfide.

**6. ACCIDENTAL RELEASE MEASURES**

- Personal precautions : Sweep up to prevent slipping hazard. Avoid breathing dust.
- Environmental precautions : Do not contaminate surface water. Prevent product from entering drains.
- Methods for cleaning up : Clean up promptly by sweeping or vacuum.
- Additional advice : Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).

**7. HANDLING AND STORAGE****Handling**

- Advice on safe handling : Use good housekeeping for safe handling of the product. Keep out of water sources and sewers.

Spilled pellets and powders may create a slipping hazard.

Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary, but may not by themselves be sufficient.

- Advice on protection against fire and explosion : Treat as a solid that can burn. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

**Storage**

- Requirements for storage areas and containers : Keep in a dry place. Keep in a well-ventilated place.

- Advice on common storage : Do not store together with oxidizing and self-igniting products.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION****Personal protective equipment**

- Respiratory protection : No respiratory protection is normally required. If heated material generates vapor or fumes that are not adequately controlled by ventilation, wear an appropriate respirator. Use the following elements for air-purifying respirators: Organic

**Ryton® R-4-200BL PPS Compound**

Version 1.3

Revision Date 2011-02-10

Vapor and Formaldehyde. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection. Dust safety masks are recommended when the dust concentration is excessive.

- Eye protection : Use of safety glasses with side shields for solid handling is good industrial practice. If this material is heated, wear chemical goggles or safety glasses with side shields or a face shield. If there is potential for dust, use chemical goggles.
- Skin and body protection : At ambient temperatures use of clean and protective clothing is good industrial practice. If the material is heated or molten, wear thermally insulated, heat-resistant gloves that are able to withstand the temperature of the molten product. If this material is heated, wear insulated clothing to prevent skin contact if engineering controls or work practices are not adequate.
- Protective measures : Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

**9. PHYSICAL AND CHEMICAL PROPERTIES****Information on basic physical and chemical properties****Appearance**

- Form : Pellets
- Physical state : Solid
- Odor : Mild to no odor

**Safety data**

- Molecular formula : Mixture
- Density : 1,6 - 1,8 g/cm<sup>3</sup>
- Water solubility : Negligible

**10. STABILITY AND REACTIVITY**

- Chemical stability : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure

**Possibility of hazardous reactions**

**Ryton® R-4-200BL PPS Compound**

Version 1.3

Revision Date 2011-02-10

Conditions to avoid : Avoid prolonged storage at elevated temperature.

Materials to avoid : Avoid contact with strong oxidizing agents.

Thermal decomposition : Low molecular weight hydrocarbons, alcohols, aldehydes, acids and ketones can be formed during thermal processing.

**11. TOXICOLOGICAL INFORMATION****Ryton® R-4-200BL PPS Compound**

Acute oral toxicity : Presumed Not Toxic

**Ryton® R-4-200BL PPS Compound**

Acute inhalation toxicity : Presumed Not Toxic

**Ryton® R-4-200BL PPS Compound**

Acute dermal toxicity : Presumed Not Toxic

**Ryton® R-4-200BL PPS Compound**

Skin irritation : No skin irritation

**Ryton® R-4-200BL PPS Compound**

Eye irritation : No eye irritation

**Ryton® R-4-200BL PPS Compound**

Sensitization : Did not cause sensitization on laboratory animals.

**Ryton® R-4-200BL PPS Compound**

Further information : This product contains RYTON® PPS POLYMER. Subchronic feeding studies of RYTON® PPS Polymer at dietary levels of up to 5% caused no detrimental effects in laboratory animals. Molten polymer may cause severe thermal burns. The interior of molten masses may remain hot for sometime because of the low thermal conductivity of the polymer. Use care when disposing of, or handling such masses. The major thermal decomposition products of molded RYTON® PPS POLYMER are carbon monoxide, carbon dioxide, sulfur dioxide, and carbonyl sulfide. The latter two are the most significant producing mucous membrane irritation, nose bleeds and finally if exposure continues, respiratory paralysis and death. Pigments containing carbon black may have been incorporated into this product. However, the pigments in this product are bound in a polymer matrix which severely limits its extractability, bioavailability and toxicity. None of these pigments is likely to cause adverse health effects under recommended conditions of use.

**Ryton® R-4-200BL PPS Compound**

Version 1.3

Revision Date 2011-02-10

**12. ECOLOGICAL INFORMATION****Ecotoxicity effects****Elimination information (persistence and degradability)**

Bioaccumulation : Does not bioaccumulate.

Mobility : The product is insoluble and sinks in water.

Biodegradability : This material is not expected to be readily biodegradable.

**Further information on ecology****Additional ecological information** : This material is not expected to be harmful to aquatic organisms.  
Fish or birds may eat pellets which may obstruct their digestive tracts.**13. DISPOSAL CONSIDERATIONS**

The information in this MSDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

**14. TRANSPORT INFORMATION**

**The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).**

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the MSDS and the bill of lading.

**USDOT**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**IMO / IMDG**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**IATA**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

Philippines PICCS	:	On the inventory, or in compliance with the inventory
China IECSC	:	On the inventory, or in compliance with the inventory

**16. OTHER INFORMATION**

**NFPA Classification**                      : Health Hazard: 0  
Fire Hazard: 1  
Reactivity Hazard: 0

**Further information**

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this MSDS pertains only to the product as shipped.

The above information is based on the data of which we are aware and is believed to be correct as of the date hereof. Since this information may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the
